

Microsoft Word 2013

Level 1

ERP · BI · CRM · EPM · HR · PAYROLL

Course Outline

Word processing is the use of computers to create, revise, and save documents for printing and future retrieval. This course is the first in a series of three Microsoft® Office Word 2013 courses. It will provide you with the basic concepts required to produce basic business documents.

Course duration:

This course is scheduled for one day from 9:00 till 16:00.

Course pre-requisites:

Students should be familiar with using personal computers and have used a mouse and keyboard. You should be comfortable in the Windows environment and be able to use Windows to manage information on your computer. Specifically, you should be able to launch and close programs; navigate to information stored on the computer; and manage files and folders. Students should have completed the following courses or possess equivalent knowledge before starting with this course: Windows 7, Windows XP Professional: Level 1, Windows XP Professional: Level 2, Windows XP: Introduction, and Windows 2000: Introduction.

Documentation:

The following documentation is included with the course

- > Microsoft Word 2013 Level 1 user guide
- > Certificate of attendance

After attending you will be able to:

- > Create a basic Word document
- > Edit a document
- > Format text
- > Format paragraphs
- > Insert a table
- > Insert special characters and graphical objects
- > Control the page setup and appearance of a Word document
- > Proofread documents for accuracy

Who should attend?

This course is intended for individuals who want to gain basic knowledge of working on Word. Individuals who want to pursue Microsoft Certified Application Specialist certification in Microsoft Office Word 2013 can also take this course.
