

Microsoft Power Point 2010

Level 2

ERP · BI · CRM · EPM · HR · PAYROLL

Course Outline

Build on your basic knowledge of and experience in PowerPoint to fine-tune your presentations.

Learn how to set up and travel with a presentation.

If you are not sure whether others can utilise PowerPoint, but need to send them an effective presentation incorporating graphics, animation and sound- then the advanced course is just for you.

Course duration:

This course is scheduled for one day from 9:00 till 16:00.

Course pre-requisites:

The target student for this course should be comfortable using a personal computer and Microsoft Windows 7. Students also need to know the basics of using Microsoft PowerPoint 2010. Students will get the most out of this course if their goal is to become proficient in using PowerPoint's advanced features to create enhanced presentations.

This course assumes that students have completed the following courses or have equivalent experience:

- Windows 7: Basic, Windows Vista: Basic or Windows XP: Basic
- PowerPoint 2010 Level 1

Pre-Training Assessment:

If you're not sure which level you need to start your training with, feel free to request an online pre training assessment.

Documentation:

The following documentation is included with the course

- Microsoft Power Point 2010 Level 1 user guide
- Certificate of attendance

After attending you will be able to:

- Customize the Quick Access toolbar and the Ribbon; and redesign a presentation by creating a custom design theme.
- Modify images by cropping them and removing background elements; add and edit video and audio clips; apply animation effects; and create a photo album presentation
- Format SmartArt graphics by changing associate (component) objects; draw and format custom tables; and customize a chart by using the Chart Tools tabs.
- Add interactive elements to a slide by adding and editing action buttons; create customized slide shows by using the Custom Shows dialog box; and create a simple mathematical formula by using the Equation tool.
- Review presentations by using Comments; finish and share presentations by using commands accessed through the File tab; and explore the Broadcast Slide Show feature.
Generate presentations from Word outlines; add content to slides by embedding hyperlinks to Word documents and Excel worksheets.

Who should attend?

This course is designed for people who already have knowledge of Microsoft® Office, Windows® 2000 (or above), and who desire to gain the skills necessary to create, edit, format, and print basic Microsoft Office Power Point 2010 presentations.
